

NATIONAL ROOFTOP SOLAR PROGRAMME

APPLICATION FORM – RESIDENTIAL

RSP/

A-1 Personal Details

Name of Applicant _____

Phone Number _____

ID type: Passport/Driving licence/Voters (*underline where applicable*)

ID Number _____ (*attach a copy of the national ID*)

Postal Address _____

Email _____

Profession _____

Place of work _____

(company's name)

(location)

A-2 Address and Location of Installation

House No.: _____

Suburb _____

Town _____

Land mark(s) _____

District _____

Region _____

Is the house connected to the grid? (Answer: Yes/No) ____

Choice of Solar Vendor/Installer for the Installation

Name of solar vendor/installer

(Check the attached list of **licensed solar PV installers** for guidance).

A-3.1 Technical Information 1

Do you already have BoS (inverter, batteries, etc.) installed? **YES** **NO**

If **YES**, provide information:

	BATTERY	INVERTER	SOLAR PANEL (if you have)
1	Number:	Number	Number:
2	Capacity (Ah):	Capacity (W):	Capacity (W _p):
3	Voltage (V):	Voltage (V):	Voltage (V):

Date of installation of BoS: _____

A-3.2 Technical Information 2

List the working electrical appliances in the house and their quantities in the Table below.

√	Appliances	Quantity	Wattage (W) (If you know)
	Light lamps (Outside)		
	Light lamps (Inside)		
	Table-top Fridge		
	Double cabin fridge		
	Deep freezer		
	Television		
	Ceiling fan		
	Standing fan		
	Electric iron		
	Radio		
	OTHERS		

A-4 Conditions for Qualification

Note that,

- i. the Rooftop Solar Programme is supplying or paying for only the cost of the solar PV panels up to a maximum of 500W_p;
- ii. the applicant is to pay for the cost of the balance of system components (BOS), i.e. inverter, batteries, charge controllers, breakers, switches, cables, etc., and installation works;
- iii. the installation of the BOS is to be done before the supply /installation of the solar PV panels by a licensed solar PV vendor/installer;
- iv. the applicant must change all bulbs to LED bulbs before installation of the solar PV modules would be done; and
- v. a loan facility can be secured from a number of commercial banks to help purchase the BOS. (Refer to the website for a list of some commercial banks)

A-5 Consent to Terms

- I,,
- i. understand that the Rooftop Solar Programme is supplying or paying for only the solar PV panels up to a maximum of 500W_p;
 - ii. agree to pay for the cost of the balance of system components (BOS), i.e. inverter, batteries, charge controllers, breakers, switches, cables, etc., and installation works;
 - iii. agree that the solar panels provided for under the programme are installed ONLY after the BOS have been installed and an inspection conducted;
 - iv. agree to grant the staff of Energy Commission, or any other entity designated by the Energy Commission to act on its behalf, access to the completed solar PV system;
 - v. agree to provide the Energy Commission with performance data of solar PV system upon request;
 - vi. agree to maintain the completed solar PV system regularly and pay for any associated cost; and
 - vii. agree to ensure the security of the solar PV panels.

(Sign below if you consent to the points i - vii above)
